Driveway/Drainage Permit

Permit is hereby granted to _____ owner of

_____ to install the improvements described in the attached plans subject to the following conditions. All conditions must be met before occupancy permit is issued: _____

1. Any necessary pipe must be installed.
2. Water *must be prevented* from entering roadway (public or private) or adjoining properties.
3. A 2" bituminous concrete apron from edge of roadway to property line must be installed. (6 ft. minimum)
4. Receipt of current tax status form in good standing with finance department.
5. If scenic road, all trees and stone walls must be shown on the plan
6. Per Town of Sturbridge Bylaw, driveway grade shall not exceed 12%.
7. All Sturbridge Storm water bylaws apply.
8. Need to submit 2 full size to scale plans showing driveway grades existing and proposed. Any trees to be removed.
9. Cross culvert needs to be installed by applicant as warranted.

*****Must abide to all aspects of the Stormwater Bylaw, see section 6.92.1-6.92.8 attached to permit*****

Minimum of a 12" culvert unless otherwise approved.
