The following information must be submitted with the application for a sign permit for new signs and changes to existing signs: (At its discretion, the DRC may substitute some requirements with a site visit).

A Site Plan showing property lines, setback areas, access points, traffic flow and a scaled site plan showing property lines, appropriate front, side, and rear yard setbacks as identified in the Zoning bylaw, pedestrian and vehicular access and existing buildings and significant site objects and features, and the existing and proposed sign locations shall also be shown.

A drawing of the proposed structure or sign, including color and type of surface materials, showing front elevations, rear elevations, and side elevations, where there are not adjoining buildings. The drawing should accurately convey the design of the sign including lettering styles, size, and composition.
