**RE: 51 Technology Park Road - Amendment to OOC
DEP File# 300-771**

Dear Members of the Board:

On behalf of Dileo Gas we are submitting a request for an amendment to the plans associated with the Order of Conditions (DEP File #300-771).

The modifications to the site plans include the following:

1. Increasing the driving isle in front parking area to 30' wide.
2. Shifting location dumpsters.
3. Replacing loading dock doors on building with overhead doors.
4. Adjusting slab elevation of building by 18 inches.
5. Add one way entrance from Picker Road for propane deliveries only.

The limit of work within 200' of the wetland resource area is the same as was approved in the original plans and all stormwater management facilities remain unchanged.

Thank you for your attention to this request. And we look forward to presenting the proposed request for amendment to your Commission at the next available public hearing.

Respectfully,

John M Grenier

John Grenier,
