

Good evening,

My Name is Jon Zwirblia, and I am direct abutter.

I am here to speak on the current proposed project -Lot 3 20 Fiske Hill Road & 30 Main Street (Berry Farm Road).

I've tried to make every meeting and apologize for not being here to read my last statement in person.

Thank you for listening to it last week.

Will the developers fill this housing area with residents. We don't know. No one knows.

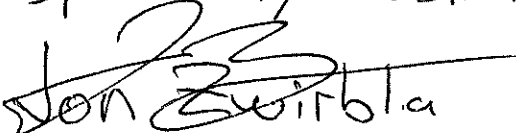

The impact on the vernal pools, wildlife and surrounding areas. That we do know.

Please consider what precedent, if approved, is this going to take. How many projects before you have re-drawn and met the by-laws.

As you all know the by-laws are there for a reason, and all of us have a duty to obey them, and respect that the town officers and constituents has approved those by-laws as written to be enforced.

I know I keep bringing up the same points, I feel they are very important, and hope you consider them when making your decision.

Members of the commission I urge you to enforce the town by-law and be the stewards of the lands.

Respectfully Submitted,

Jon Zwirblia
