A.6. General Project Description

Site: 60 Farquhar Road, Sturbridge

Applicant: Craig Bernier

The applicant proposes to remove 3 White Pines within the outer riparian zone. The removal of the three trees will amount to 235 square feet of alteration within the riverfront area. The area where the trees have been removed will be reverted to lawn. The area where the trees are to be removed is surrounded by existing asphalt driveway.

The site falls within the NHESP priority & estimated habitat polygons but the work is exempt per 321 CMR 10.14 (5) (below).

321 CMR 10.14 (5): construction or removal of structures that are secondary to the primary residence and located within existing paved areas and lawfully developed and maintained lawns or landscaped areas on residential properties, provided there is no expansion of such existing paved, lawn and landscaped areas;

Glenn E. Krevosky of EBT Environmental Consultants, Inc. delineated the wetland boundaries on 3/19/2023 with 12 A series wetland flags - utilizing soils, vegetation and indicators of hydrology according to 310 CMR 10.55 (2) (c). The mean annual high water was flagged with one "MAHW" flag at the closest point to the proposed garage.

The erosion control measures of staked 9" straw wattles backed by entrenched silt fence, shown on the site plan, shall be placed prior to site work. These measures shall be maintained in good working order throughout the project until all exposed soils are final graded, loamed, seeded and stabilized with well-established soil stabilizing vegetation.

**GENERAL PROJECT DESCRIPTION FOR WORK SUBJECT TO STURBRIDGE
WETLAND BYLAW**

Site: 60 Farquhar Road, Sturbridge

Applicant: Craig Bernier

The applicant proposes to construct a 60' by 35' proposed garage within the 200-foot buffer zone to a bordering vegetated wetland. A stockpile location has been designated outside of all buffer zones.

The applicant proposes to remove 3 White Pines within the outer riparian zone. The removal of the three trees will amount to ±235 square feet of alteration within the riverfront area (stump removal). The large pines stick up individually (no other trees are adjacent to buffer wind) and sway in the wind. During heavy gusts the concern is they will snap and hit the proposed structure. The area where the trees have been removed will be reverted to lawn. The area where two of the trees are to be removed is surrounded by an existing asphalt driveway.

The site falls within the NHESP priority & estimated habitat polygons but the work is exempt per 321 CMR 10.14 (5) (below).

321 CMR 10.14 (5): construction or removal of structures that are secondary to the primary residence and located within existing paved areas and lawfully developed and maintained lawns or landscaped areas on residential properties, provided there is no expansion of such existing paved, lawn and landscaped areas;

Glenn E. The erosion control measures of staked 9" straw wattles backed by entrenched silt fence, shown on the site plan, shall be placed prior to site work. To calculate filing fees, refer to the category fee list and examples in the instructions for filling out WPA Form 3 (Notice of Intent).

B. Fees

Fee should be calculated using the following process & worksheet. **Please see Instructions before filling out worksheet.**

Step 1/Type of Activity: Describe each type of activity that will occur in wetland resource area and buffer zone.

Step 2/Number of Activities: Identify the number of each type of activity.

Step 3/Individual Activity Fee: Identify each activity fee from the six project categories listed in the instructions.

Step 4/Subtotal Activity Fee: Multiply the number of activities (identified in Step 2) times the fee per category (identified in Step 3) to reach a subtotal fee amount. Note: If any of these activities are in a Riverfront Area in addition to another Resource Area or the Buffer Zone, the fee per activity should be multiplied by 1.5 and then added to the subtotal amount.

Step 5/Total Project Fee: Determine the total project fee by adding the subtotal amounts from Step 4.

Step 6/Fee Payments: To calculate the state share of the fee, divide the total fee in half and subtract \$12.50. To calculate the city/town share of the fee, divide the total fee in half and add \$12.50.
