

**PROJECT NARRATIVE**  
**52 Stallion Hill Road, Sturbridge, MA**  
**Town of Sturbridge**  
**Proposed Riverlands Parking Area and Grand Trunk Trail Access**

The proposed project is to develop and enhance trails with the Town of Sturbridge Riverfront land.

The proposed work consists of construction of a trailhead parking area. An existing cart path will be slightly widened and graded to provide multi-use access to the land.

All work will occur within previously disturbed areas. Vegetation will be maintained to the practical extent possible.

All work within 50 ft. of a resource area will have straw wattles installed along the work area to protect the resource area during construction.

All disturbed areas will be stabilized during and after construction.
