

Massachusetts Department of Environmental Protection
 Bureau of Resource Protection - Wetlands
WPA Form 8A – Request for Certificate of Compliance
 Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

DEP File Number:

300-0959
 Provided by DEP

A. Project Information

Important:
 When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.

Upon completion of the work authorized in an Order of Conditions, the property owner must request a Certificate of Compliance from the issuing authority stating that the work or portion of the work has been satisfactorily completed.

1. This request is being made by:

Banjo Boy LLC
 Name
31113 Hollerich Drive
 Mailing Address
Big Pine Key FL 33043
 City/Town State Zip Code
(774) 264-9750
 Phone Number

2. This request is in reference to work regulated by a final Order of Conditions issued to:

Paquette Builders
 Applicant
5/22/2017 300-0959
 Dated DEP File Number

3. The project site is located at:

9 Holland Road Sturbridge
 Street Address City/Town
Parcel ID: 348-02338-009
 Assessors Map/Plat Number Parcel/Lot Number

4. The final Order of Conditions was recorded at the Registry of Deeds for:

Banjo Boy LLC
 Property Owner (if different)
Worcester 44044 384
 County Book Page
 Certificate (if registered land)

5. This request is for certification that (check one):

- the work regulated by the above-referenced Order of Conditions has been satisfactorily completed.
 the following portions of the work regulated by the above-referenced Order of Conditions have been satisfactorily completed (use additional paper if necessary).

- the above-referenced Order of Conditions has lapsed and is therefore no longer valid, and the work regulated by it was never started.

WPA Form 8A – Request for Certificate of Compliance

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

A. Project Information (cont.)

6. Did the Order of Conditions for this project, or the portion of the project subject to this request, contain an approval of any plans stamped by a registered professional engineer, architect, landscape architect, or land surveyor?

Yes If yes, attach a written statement by such a professional certifying substantial compliance with the plans and describing what deviation, if any, exists from the plans approved in the Order.

No

B. Submittal Requirements

Requests for Certificates of Compliance should be directed to the issuing authority that issued the final Order of Conditions (OOC). If the project received an OOC from the Conservation Commission, submit this request to that Commission. If the project was issued a Superseding Order of Conditions or was the subject of an Adjudicatory Hearing Final Decision, submit this request to the appropriate DEP Regional Office (see <http://www.mass.gov/eea/agencies/massdep/about/contacts/find-the-massdep-regional-office-for-your-city-or-town.html>).

Re. 9 Holland Road, Sturbridge – Request to Lift of Enforcement Order, dated 10/30/2019

Dear Commission,

The applicant, Richard DiBonaventura of Banjo Boy LLC, through their representative, EBT Environmental Consultants Inc., is requesting the enforcement order for 9 Holland Road be lifted. Twenty-three saplings were planted (listed below) on 5/21/2021 to replace the unpermitted trees cut as agreed upon a the Sturbridge Conservation Commission meeting on 2/2/2021. The forest is growing back at 595 Main Street (Blackington LLC) where a portion of the clearing took place. All work outlined on the Repair and Clean-Up plan dated 4/10/2016 has been completed.

- (5) Red Maple (2" To 2.5" Caliper)
- (6) Swamp White Oak (2" To 2.5" Caliper)
- (5) Northern Red Oak (2" To 2.5" Caliper)
- (6) Black Gum Tupelo (2" To 2.5" Caliper)
- (1) White Oak (2" To 2.5" Caliper)

One of the issues with the site when EBT, Inc became involved was erosion across 9 Holland into the Quinebaug River caused by concentrated runoff from the DOTs clogged catch basins on Route 20. We have been working with DOT over the last few years and they have now filed a Notice of Intent (DEP File #300-1175) to install twin drop inlet catch basins which will handle the flow from Route 20, attenuate the colloids and nutrient in the flow and then discharge the water to the Quinebaug River – a rare muscle habitat.

Respectfully,

Glenn E. Krevosky, consultant

Photo 1 taken by EBT, Inc. on 7/19/2023 – Looking west showing the stable entrance off of Route 20 downgradient of DOTs twin catch basins (the subject of stormwater overflow). The applicant has been keeping the catch basin grates clear of debris so Route 20’s stormwater does not flush through 9 Holland and cause sedimentation into the Quinebaug River (as had been occurring prior to EBT, Inc’s involvement in the project in 2019).

Photo 2 taken by EBT, Inc. on 7/19/2023 – Looking west with the mill structure behind the photo taker to the east showing a stable herbaceous layer within the yard. All yard areas surrounding the mill structures are stable.

Photo 3 taken by Richard Connelly on 10/6/2023 – 23 saplings were planted on 5/21/2021, as required by the Commission. The photo shows a typical example of the vigor of all of the saplings.

Photo 4 taken by EBT, Inc. on 7/16/2022 – Standing on the eastern property boundary of 9 Holland Road looking into the Blackinton LLC (595 Main Street) property where the forest undergrowth saplings and bushes have grown back from the original violation cutting, which occurred in 2019.
