Subject: Re: 419 main signs

Good morning Joel,

I just came in and took pictures and measurements. There are actually 2 roadside signs both being 2 sided. 1 wall plaque sign single sided outside the door and one window decal. The measurements are.....

Lg roadside 69.5" X 17 3/4"
Sm roadside 35 1/4" X 7 1/2"
Wall sign 13" wide
Inside door decal 20 3/4" wide

I wasn't sure where you wanted me to measure from so it would probably be best to have someone come from your company to get it exact. Please let me know if you need anything else.

Best, Michael

Michael,

It was good to speak with you today. Attached is what I have for files for the roadside sign. Essentially, you would purchase two (one for each side) pieces of printed vinyl measuring 15" x 66.5" for your business advertising space. Please double check those measurements for accuracy for your space. I have included a mock up using your logo and one that I feel would be more readable from a distance, while in motion, amongst the other tenants. Let me know if you would like to see revisions and I will get you a price for these installed.

I think it would be best to send me a photo with measurements of the other signs and window lettering that you will need. I will provide you with a mock up for each along with pricing.

Sincerely, Joel

Joel Perry
