

This panel (yellow shaded) will be available to you. You can divide the panel any way you ...like NSS/ESS if you wish. This sign's design must be approved by the Town of Sturbridge.

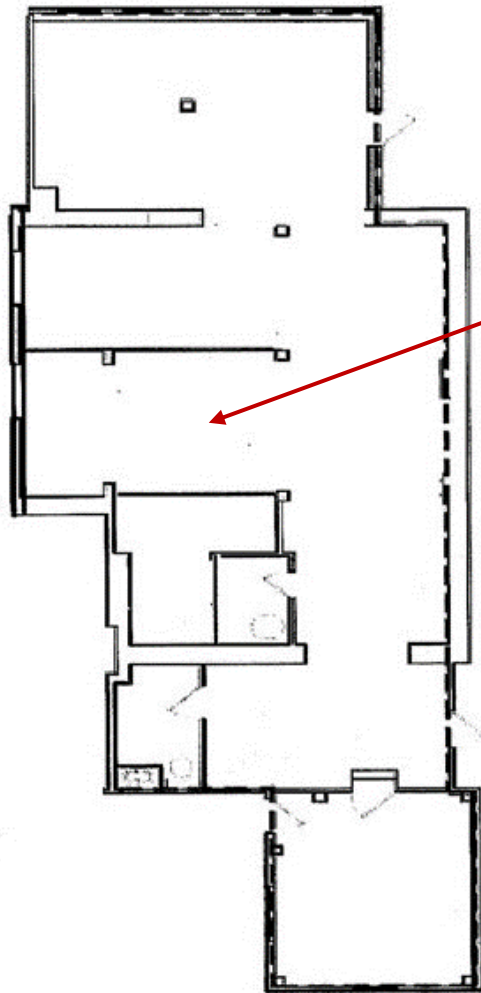

This would likely be where your store sign would be placed if this is going to be your main entrance.

Sturbridge does allow wayfinding signage... so maybe something in this area with your logo that states Main Entrance other end of building with an arrow or something like that.
