## Conservation Commission

### Tree Removal Permit Application

*In an effort to make the most informed decision possible concerning a tree removal application the Commission encourages the applicant to provide as much information about the tree(s) as possible.*

*Certain tree removal requests may be administratively approved by the Conservation Agent while others require approval from the Conservation Commission at a public meeting. Applicants will be contacted by the Conservation Department regarding site visit and the requirement for approval by the Conservation Commission.*

*\*In situations where the health and/or risk assessment of the tree is justification for removal professional documentation of such is required. Credible professional tree diagnostic, evaluation and recommendation advice is available to the applicant through certified arborists: Please refer to the following two websites to learn more about utilizing a certified arborist. If Health or High Risk is checked above, please submit the arborist's report/documentation with your application.*

Refer to:            Massachusetts Arborists Association:    <http://www.massarbor.org/>  
                         International Society of Arboriculture:    <http://www.isa-arbor.com/>

**Replacement/Mitigation plantings are suggested, and may be required by the Commission in certain cases.**

**Guidance for Replacement Plantings:**

*It is recommended that careful consideration be made for mitigating plantings when a tree is being removed. Shrub planting may be a mitigation recommendation when tree replacement is not appropriate. This compensation is dependent upon the level of activity associated with the tree removal and its impacts or future impacts upon the effected resource area. Additional guidance can be obtained from a Certified Arborist or a qualified landscape professional.*
