The Sturbridge Farmers Market was created by the Special Events Committee in Sturbridge to provide a cooperative community for small scale local agricultural and artisan products, striving to enrich the quality of life in our area by providing a healthy community activity that promoting wellness in a wholesome, social gathering place.

To that end the volunteers of the Sturbridge Farmers Market (herein referred to simply as Market) have developed the following rules that it expects all of its vendors to adhere to while participating in the Market. These rules were approved and adopted by the Sturbridge Special Events Committee on 18 December 2018.

If there are any questions or concerns regarding these rules, you can email those concerns directly to the Market at sturbridgefarmersmkt@gmail.com.

PARTICIPANT ELIGIBILITY

The Market is open and available to all Farmers (one who grows or harvests their own product) or Producers (one who makes their own products) in the local region. Preference will be given to vendors within a twenty-five (25) mile radius of Sturbridge. Any items sold at the market must have been grown, raised, harvested or made by the vendor. No third-party sales are permitted at the market.

PERMITS AND LICENSING

Vendors are required to have permits if they are selling/handling food products. Information on permits can be found on the Sturbridge Board of Health website at www.town.sturbridge.ma.us/board-health, or to speak with the Board of Health please call (508) 347-2504.

Vendors are also required to have permits if they are using propane tanks in any capacity. Information on permits can be found on the Sturbridge Fire Department website www.town.sturbridge.ma.us/fire-department, or to speak with an on duty fire officer please call 508-347-2525 and follow the prompts.

APPLICATION PROCESS

All Vendors must complete the Market's online application. Only online applications will be considered. Applications will open early in quarter one and an announcement of the vendors will be made before the end of said quarter.

APPLICATION REVIEW PROCESS & REASONS FOR DISMISSAL OF APPLICATION

The Market will review all applications fairly, and give equal consideration to all vendors who submitted the application before the deadline. Priority will be given to those who apply before February. When reviewing applications, the Market will consider the following metrics when considering which vendors to permit on a given Market day:

- Does said vendor meet and/or support the Vision and Mission of the Sturbridge Farmers Market?
- Is the product unique?
- How many similar / conflicting products are or may be sold at the Market?
- If a vendor has participated, have they adhered to all Rules and Policies set forth by the Market?

The Market reserves the right to use these and other categories not listed when considering a potential vendor for the Market.

The goal of the Market is to highlight the diversity and skill of our local farmers and producers in the Sturbridge region. To that end the Market will make every effort to allow all vendors to participate. However not every vendor may be permitted to participate. Reasons for this can include (but are not limited to): insufficient space; business location; product mix; duplication of product(s); relationship with farmers; sourcing impact; unfulfilled ingredient sourcing requirements; not submitting the required licenses/permits on time; late arrival and/or absence without proper notice; and refusal to adhere to the Sturbridge Farmers Market Rules.

The Market adheres to all appropriate Federal, State and local health regulations and standards. The Market expects ALL of its vendors to adhere to said codes and standards. Furthermore they may be subject to periodic inspections by the Health Inspector during the Market.
